

Case Study

+ Commercial Fit-Out & Refurbishment

Leonardo UK - Toilets

This project involved the refurbishment of existing washroom facilities that were outdated and no longer meeting current standards. The works focused on modernising the space, improving hygiene standards, and enhancing overall usability for end users.

Client Benefits

- + Modern, clean, and fully functional washroom facilities
- + Improved plumbing performance and reduced risk of ongoing issues
- + Enhanced hygiene standards through new sanitary installations
- + Upgraded user experience for staff and visitors
- + Increased facility standards and compliance with current expectations
- + Cost-effective refurbishment extending the lifespan of existing building services

Services Provided

- + Strip-out and removal of existing sanitaryware
- + Plumbing system upgrades and modifications
- + Installation of new toilets and washbasin units
- + Final connections, testing, and commissioning of all new installations
- + Coordination and delivery within an occupied environment
