

## Case Study

- + Warehouse & Racking Solutions
- + Commercial Fit-Out & Refurbishment

SOL Services was appointed to deliver a £2 million warehouse fit-out at GXO's DIRFT facility. Completed over a 16-week programme, the project was designed to enhance the functionality, efficiency, and overall usability of the warehouse, creating an environment that better supported operational performance and employee welfare.

### Services Provided

- + Warehouse fit-out and refurbishment
- + Warehouse racking installation
- + Construction of staff welfare facilities
- + Ceiling installation and associated building works
- + Project and site management
- + Health and safety management within a live operational warehouse
- + Programme coordination and quality assurance

### Client Benefits

- + Increased warehouse storage capacity with new racking systems
- + Improved operational efficiency with stock organisation and warehouse layout
- + Modern staff welfare facilities for a comfortable and compliant working environment
- + Enhanced appearance and functionality through upgraded ceiling and fit-out works
- + Professionally managed delivery with minimal disruption to warehouse operations
- + Project completed on time and within budget, providing GXO with a future-ready, efficient warehouse facility.
